i watched you dance toward the light
i saw you peer into the sky
well i just couldn't take my mind off you
this time

you could show me what you like
and you could let me come inside
and we could watch a dvd or something
tonight

you should feel good
everyday you should
'cause i just love to see you smile or something
all the time

i can't even look you in the eye

sometimes i wish my feelings would subside
'cause i just think we're too young or something
sometimes

but you should feel good
everyday you should
'cause i just love to hear you laugh or something
all the time

i watched you dance toward the light
i saw you peer into the sky
well i just couldn't take my mind off you
this time
