Verse 1

Would you hear me? I've never felt like this and I'm so
damn lost
I can't get up, can't seem to face it
And in the moment I'll try to hide the fear but it's all
around
I'll never be fine, until this feelings defined

Pre-Chorus

Can I make it?
One more word to break the silence
And you'll wonder
Why I'm never there, why I'm never there

Chorus

Say it Say it, I never really cared, all I really wanted was
to try to use you so
Say it Say it you better leave right now, don't wait to
hesitate, take what you can and run

Verse 2

And in your weakest moment you'll take for granted
everything that's good
I feel this way, can't seem, to shake it
Yeah I never wished for the drugs I take to always feel
so good
I'll need to see straight, before it all too late

Pre-Chorus

Can I make it
One more word to break the silence
And you'll wonder
Why I'm never there, why I'm never there

Chorus

Say it Say it, I never really cared, all I really wanted was
to try to use you so
Say it Say it you better leave right now, don't wait to
hesitate, take what you can and run
Say it Say it, I never really cared, all I really wanted was
to try to use you so
Say it Say it you better leave right now, don't wait to

hesitate, take what you can and run

Bridge

Just take what you can and run

Chorus

Say it Say it, I never really cared, all I really wanted was
to try to use you so

Say it Say it you better leave right now, don't wait to
hesitate, take what you can and run

I'll be there waiting for you to take everything

So just Say it Say it Say it Say it, I just want you to take
what you can and run
