Nightroller lyrics

Her tits was lovely like her ass
She really pleased you for some cash
Her reputation was no good
She's in bed with every dude

She walks the streets all night
Dressed in pants so tight
Can't be more than sixteen
The prettiest teen that i ever seen

Nightroller x2
She's a teenage queen to me
You can't get her love for free
I don't even know her name
It doesn't matter cos it's all the same

We met on one bar last night
Her face was shining like a light
I asked her how come
She said i wanna take you home

Nightroller x2
