Parachute Settlement lyrics

You sit on your fat ass, all god damn day
People who criticize, you send them away
You don't have to worry about unemployment
Coz' you got your fucking parachute settlement

Go ahead, make some way
Save yourself, for another day
Come on now, start to beg and please
Prepare yourself to get down on your knees

You just take, whatever you may need
You're full of corruption, and you're full of greed
You never cared about how those people felt
You just punch them underneath the belt
Go ahead, make some way
Save yourself, for another fucking day
Come on now, start to beg and please
Prepare yourself to get down on your knees

You have no emotions for anybody else
All you cared about is yourself
You really think you got it made
And that your bills are paid

Go ahead, make some way
Save yourself, for another fucking day
Come on now, start to beg and please
Prepare yourself to get down on your knees x2
