Catch a train anywhere. I need to take a real vacation
I'll take a plane, I don't care. I'm suffering from this
alienation

There's always someplace better to be, and
somewhere else to go

But you can't take me, 'cause I really don't want to

Chorus: Have you ever really looked outside? You
really don't want to

You try to keep me locked inside. But I really don't want
to

If you could float away from here, what would be your
destination?

Let's touch the sky, and feel the air. I'm waiting for an
indication.

There's always someplace better to be, and
somewhere else to go

But you can't take me, 'Cause I really don't want to
Chorus:X 2

Bridge:

If you listen to me whine. I don't want to hear you cry.

There's always someplace better to be, and
somewhere else to go

But you can't take me, 'Cause I really don't want to
Chorus:X2
