She's An Anarchist lyrics

Doesn't matter what you do or say  
She will have it her own way  
To argue with her is just for fools  
You'll know she makes the rules

Jesus christ, she's an anarchist  
What can i do, what can i do x2

Here we go

Solo

Jesus christ, she's an anarchist

What can i do, what can i do x2

Should you go or should you stay  
She'll run you down in a terrible way  
She's got style and she's got class  
Watch out she'll kick your ass

Jesus christ, she's an anarchist  
What can i do, what can i do x2
