The Killer In Me lyrics

I went to a movie in my hometown
It was raw evil and bloody as hell
People were slaughtered everywhere
I saw arms guts and brains as well

I saw and i learned all about life
If you wanna enjoy you must kill and rape
After the show i sat down to think
Maybe this film can be seen on tape

The killer in me
I love what i see
Corps and blood is what i like
I ride the night with my monsterbike
The killer in me x3
I love what i see
The killer in me
My first of victims was a black striped cat
I wanted a burger but i was broke
I had no booze to wet my throte
So i mixed the animal with some coke

Now i am the worst of them all
All because what i saw in that hall
The way i like it is raw and mean
As you can se my thoughts are a bit obscene

The killer in me
I love what i see
Corps and blood is what i like
I ride the night with my monsterbike
The killer in me x3
I love what i see
The killer in me
