Understand lyrics

Why do i promise a whole lot of shit
To a society where i don't fit
Why do i listen to people who tell me lies
Why do i believe in their fake alibies

I'll take a good look at myself
Before i start to judge anybody else
But will they ever try to see
Or understand the fact that i'm just me

Here i am, here i am
Try to understand
I'm nothing, i'm nothing
More than i am

Sometimes when my world is falling apart

I try to stand up and begin from the start
It makes no difference if you believe
Or close your eyes and don't wanna see

When a total emptiness is filling me
It's driving me crazy to the point of agony
I really could use some peace of mind
Look into the mirror and the accidents behind

Here i am, here i am
Try to understand
I'm nothing, i'm nothing
More than i am x2
