

Daniel Torreliza "Think Positive"

Visit "[Think Positive](#)" on MotoLyrics.com

When your life is filled with glittering lights
All you can see is what pleases in your eyes
Driven out and purpose you can't find
You're goin crazy, couldn't find peace to anyone

And now your wondering that when darkness come
A light that shines throughout the night
Could burn your heart inside

Chorus

Think positive coz god prepared
A way for you to escape
Whatever it is take heart
Think positive when load of care
Seems heavy for you to bear
Think of christ
Surely you can endure everything

Repeat ist and second stanza
One fret higher
Chorus
End
