

Alchemist

"Clot"

Visit "[Clot](#)" on MotoLyrics.com

By my own closed mind, poisoned images, self
imagination

Sense of reckoning halts its gestation

Attitude and feelings unable to relate

The iron barrier my subconscious creates

Clot, clot, clot

Micro electric memories solitarily confined

Preventing new additions to the archives of my mind

Confrontation of my lobes to bridge the gap where
knowledge flows

Knowing what I thought is hidden from me

Confrontation of my lobes to bridge to stream where
knowledge flows
