"Garden Of Eroticism"

Through the abundant life
Your ability release my infidelity
Swollen ovaries of temptation

Shall I dare submerge my self with this obsession?
Trapped by lust, nudity an obscenity
Shading its darkness with light

Fooled I am drawn toward the gates of jade
Garden gates forever trap me
Forever to tend her fields

Rewarded with the fruits of life
Take another bite, fate seizes me
I am punished by my loyalty to her desire

Garden of eroticism, hemaphrodelia
Punished by my loyalty to her Salacrophobia
Tetostrodelia
