

## Alchemist "God Shaped Hole"

Visit "[God Shaped Hole](#)" on MotoLyrics.com

Desperate and depraved  
You've lost your way again  
Broken and battered  
Towards the face of sin  
Demons and thieves  
Distract the path you choose  
Tunnel vision prevents the world  
From ever reaching peace

You know, you know  
Been there before  
You know, you know  
You're not really sure  
Your god shaped hole  
You know, you know  
Within yourself  
We're here to help

It's what you want but maybe not  
Your quest your curse it can't be stopped  
Throw it in. It's where it begins  
To take control from your god shaped hole
