

Alchemist "Surreality"

Visit "[Surreality](#)" on MotoLyrics.com

I can't believe existence is confined to this life
And I can't tell the difference between the truth and lies

Surreality, surreal, reality
Is this really me, or just an idea in my mind?

Sometimes it seems that being is all within my mind
In truth I'm seeking comfort, too difficult to find
Infernal lobe resistance, fact and fiction are the same
Please let all the answers be unleashed from my brain

I can't believe existence is confined to this life
And I can't tell the difference between the truth and lies

I can't believe existence, is confined to this life
And I can't tell the difference, between the truth and
lies

Surreality, surreality
Surreality, surreal, reality
Is this really me, or just an idea in my mind?

Surreality, surreality
Surreality, surreal, reality
Is this really me, or just an idea in my mind?
