why are you so down?
why are you so sad?
look into my eyes and tell me
could it really be that bad?
don't tell me something ugly
i just want some light and easy
give me something upbeat
let me know that you're still breathing
ok, fine

sunshine, moonbeam
flowers in the summer
happy face, smiley face
nothing could be funner
I'll make you laugh
'till your sides split
and then you'll laugh some more
Ohhhh!
now wasn't that nice?
did it make you smile?
four whole lines
without a mention of my trials
a quartet of phrase
dedicated to the cause
of putting my brain on pause
self-denial
sunshine, moonbeam
flowers in the summer
happy face, smiley face
nothing could be funner
I'll make you laugh
'till your sides split
and then you'll laugh some more
Ohhhh!
