

Dear Anneliese "Enlightenment"

Visit "[Enlightenment](#)" on MotoLyrics.com

This is your way out of place
Space and time mean nothing
When thoughts surround you,
Of those who helped you be everything

Everything you've grown to be
And everything you will become

So take stand for all of those sleeping

Your sleeping where dreams caress your wounded
arms
Leaving those who would fight to fall to peices

Their voices will echo you back to life
Leaving their values behind
Let breathing go,
And we plead for the knowledge
Of the forgotten sleeper
So sleeper speak to me
