(Yo yo)

Bury you with satan

(Peep the death rap)

Bury you with satan

Death is in your future

Im gettin outrageous on you, pullin razors on you

Blazin on you, twelve gauges on you

Amazin the ways I print your veins on you

Ill warn you I'll bring euthanasia upon you

On some shocking asia shit

Split your face and spit on your corpse, you're a goner

Wrapped stabbed flesh juxed quick and grab your neck

Bludgeon you bloody, buddy you stupid what's after death?

You must be after gettin half your body cut in half

and after the aftermath of the bloodbath I'll have my laughter

You stupid fucks'll catch crew cuts

A chainsaw'll take the top of your brain off

Stabbin the two nuts of a Ku Klux - with scalpels

My rap'll leave you shackled

My rap is like crack inside a capsule

I'll shove an axe in you where your axel

Your main point your midsection where your ribs are flexin

Infested with injections you can't get rid of the infection

Kid you're destined for the death

Dead walkin, flesh exertin

Walkin through the streets dressed - being a corpse is next

Make a mistake a blade'll take ya life away

Leave you decayed inside a lake and break your neck down to your spinal blade

The gore shit I kick is sick cause I'm a bitter kid

I'll stick and vic you bitch

RIP you to pieces - pick you out a ditch

Go devour dick you coward

Catch a thousand hits around your skull

You won't get yourself know it bitin our shit

Niggas know who did it - kid you did it

Kickin it like you bit it - you never lived it

Kick in his head til it splitted  
Open and liquid soakin a hemoglobin ocean  
You're a victim, you're no one  
I see him scopin - I choke him

(Hook) x4  
Bury you with satan  
Bury you with satan  
Death is in your future

You're in for it  
My sins are horrid explore it - cause death is torrid  
You'll be dead for it - endure it  
Morbid cold like Nordic  
The hydrochloric - pour it  
Onto your arm, it's all so much it melt the skin right off  
it  
Right to the bone - forfeit  
I offer you morphine and a chance to escape a coffin  
Enter my auction  
Become a slave I got nuns depraved  
Under my cave I got a hundred ways to murder all of  
you gays  
I'm ambitious for leavin you in stitches  
I won't give up hope, seeing you hang from a rope -  
achieve my goal  
Let the meat cleaver unfold  
You traveled a great distance  
And you still ain't sadistic - wait for assistance  
You'll hate your own existance  
Persistence overcomes resistance  
When I persist to bash my fist in your face from instinct

(Chorus) x5
