Yo Yo

(Hook) x1  
Bury you with satan  
Bury you with satan  
Death is in your future

Im gettin outrageous on you, pullin razors on you  
Blazin on you, twelve gauges on you  
Amazin the ways I print your veins on you  
Ill warn you I'll bring euthanasia upon you  
On some shocking asia shit  
Split your face and spit on your corpse, you're a goner  
Wrapped stabbed flesh juxed quick and grab your neck  
Bludgeon you bloody, buddy you stupid what's after  
death?  
You must be after gettin half your body cut in half  
and after the aftermath of the bloodbath I'll have my  
laughter  
You stupid fucks'll catch crew cuts  
A chainsaw'll take the top of your brain off  
Stabbin the two nuts of a Ku Klux - with scalpels  
My rap'll leave you shackled  
My rap is like crack inside a capsule  
I'll shove an axe in you where your axel  
Your main point your midsection where your ribs are  
flexin  
Infested with injections you can't get rid of the infection  
Kid you're destined for the death  
Dead walkin, flesh is talkin  
Walkin through the streets dressed - being a corpse is  
next  
Make a mistake a blade'll take ya life away  
Leave you decayed inside a lake and break your neck  
down to your spinal blade  
The gore shit I kick is sick cause I'm a bitter kid  
I'll stick and vic you bitch

RIP you to pieces - pick you out a ditch  
Go devour dick you coward  
Catch a thousand hits around your skull  
You won't get yourself know it bitin our shit  
Niggas know who did it - kid you did it  
Kickin it like you bit it - you never lived it  
Kick in his head til it splitted  
Open and liquid soakin a hemoglobin ocean  
You're a victim, you're no one  
I see him scopin - I choke him
