Solemon Sol & Lincoln from Snatch]

[Verse 1]

Let's talk about dead body disposal
My proposal take the corpse to the bathtub
And drain the blood out of the bastard
Strip ya self nude first so you don't get blood on ya new
shirt
And cut the fuckin' corpse up like a butcher to meat kid
And put the pieces inside trash bags
So she'll be wreaking like a fags ass
With flesh covered in leeches
And throw the bags away
In various trash bins in different areas
This shit's hilarious
Nobody notices some asshole taking out the garbage
Who would know it's a carcass?
Even if they were focusing 'cause the plastic bag is
dark kid
And even the nosy bitch wouldn't open it, it make no
sense
And if you do it just before a trash pick up
The bodies hauled away before it decays and stinks up
It won't be noticed but literally turns up other shit
And ya bag is in the middle buried right under it
Especially if you double-bagged it
Ya victim'll stay a faggot in fragments forever stagnet

[Chorus]

Dead Body Disposal
For those that don't know what to do after ya foes are
killed
Shit could get messy when the blood flow spills
You never know when you might need to know skills
In body disposal it's no frills
Dead Body Disposal
Are you interested in hearing my proposal?

[Verse 2]

Bodies begin to stink within an hour of death
And if it's warm outside then it's quicker for the sour
stench to leak out

the flesh
So think about the steps
You taking killing and be willing to consider the best
Be extra careful and grab an aerosol can of pepper
spray
to coat the pieces the smell is unbearable
Hold the first layer of bag beautifully
that'll keep animals from tearing open the bag to get to
the meat
Squirrels, dogs, and birds
Officers with dogs that smell won't find shit when they
thrown off the scent
You could hang a fuck upside down in ya tub
And slit his throat from ear to ear to remove a large
amount of blood
Most of it'll gush out on a tunnel once
But to get that last couple of pints drained work his
arms like pumps
For dismemberment gentlemen I recommend
heavy duty brawn saws that cut through gendleums
like pendulums
But if you want to take your time don't rush it
either cut each piece off like Pizza Hut pizza with a
rusty cleaver
Then put each piece up in a freezer
Take out the trash in a couple of days the stench of
decomposition's meager
And make sure there's no incriminating papers in the
bag
Letters, receipts, anything with ya name they'll trace ya
I know it's obvious but you'd be amazed at how easy it
is
to be sloppy with this even the Mafia slips

[Chorus]

Dead Body Disposal
For those that don't know what to do after ya foes are
killed
Shit could get messy when the blood flow spills
You never know when you might need to know skills
In body disposal it's no frills

[Hook]

Let's talk about death baby
Disintegration of flesh you'll see
Let's talk about all the good things and the bad things
In hacking up ya meat

Let's talk about death baby
Disintegration of flesh you'll see
Let's talk about all the good things and the bad things

In hacking up ya meat
Let's talk about that!

[Brick Top from Snatch]

[Verse 3]

There's more choices to choose kid
Bury the corpse in the ground, bury it at sea or the
pieces get distributed
When using the ground a shallow grave isn't allowed
'Cause the corpse'll be found when the stench of it
lingers out
Make sure it's six feet deep or more
Construction sites work in formented
In what's cemented suspended beneath the floor
Using the sea has its potential sequentially
The sea destroys all evidence eventually
But make sure that you tie a weight to the body to keep
it from floating
around and being discovered by mistake
Drop it as far from shore as possible otherwise it'll pop
up at low tide or
be seen by some fisherman's opticals
Distributing! Body parts is riveting
I explained it in verbs once forgive me if I begin again
A wood chipper turns a corpse into chopped meat
Spread it all over ya grass then water it down properly
Within a few days the cadaver's fertilizer
Your advisor's taught you ways of covering up murders
wiser
Regardless how you tried these methods
Be careful with prints and rented equipment use cash
and fake id's

[Chorus]

Dead Body Disposal
For those that don't know what to do after ya foes are
killed
Shit could get messy when the blood flow spills
You never know when you might need to know skills
In body disposal it's no frills
Dead Body Disposal
Are you interested in hearing my proposal?
Shit could get messy when the blood flow spills
You never know when you might need to know skills
In body disposal it's no frills

[Hook]

Let's talk about death baby
Disintegration of flesh you'll see
Let's talk about all the good things and the bad things

In hacking up ya meat
Let's talk about that!
