You will see the arch-merchant  
That's for me it's another infant  
And forget the devious gap  
The screams overlap

Catholic hypnosis brain necrosis  
Final war

Open the gates open your eyes  
Scourge sacrifices in the name of lies  
Open the doors open your mind  
Intoxicated by the new liar

Give me the force forevermore  
Final war

Moments of sublime induced sodomy  
Sacrifices in the name of catholic whore  
Final war

Defacement of the infant lamb  
Disguised as laid mothers  
The final war

Mesmerised by purple light  
Redundant frezy of ephemeral amazement  
Final war

Ancient law has been forgotten  
Your pride fallen and rotten

Metamorphosis of the brain autonomy  
Inebriated by the new liar  
Smell of non-human burnt flesh  
From delirious rectangle
