Fucking bastards
fucker
I hate all of you
Thats right
Motherfuckers
Digest this shit
Fucking sluts
Check it check it - *here, here we go*

Yo, the worlds a coffin often I stay high off endorphins
Coughing up morphine cause pain is awesome you live
off it
My angushing aggression
Simmers in the juices of anxious depression check your
intestines
If you serious like serions
You barely sing, come on, enjoy yourself like a near
death experience
I dare you to tear your skin
Get your chips clapped
By the pioneer in the field of death rap
Dress suitable you are invited to a funeral
Bash the mic in your head
Cause your raps stinks like you're dead
Like a crackhead in a ricecake bag, you think I'm nice
You telling me how I am, my man
I'll take advantage of every human I can

[hook]
Rugged shit
Thats the only way I do it
Beat you in your skull til your drippin red fluid
Rugged shit
Thats the only way I'll have it
If not I'll stab stab it, stab stab stab it
Rugged shit
Thats the only way I do it
Beat you in your skull til your drippin red fluid
Rugged shit
Thats the only way I'll kick it
If not leave me inflicted with the shit in bk?

You can catch a knife cut or buy dust or fuck a nice slut
For five bucks, I roll with five fucks that think life sucks
I'll never get hit by a attack by foes
Thats getting ? ? like trying to catch a roach, now learn
from the best
Before I burn the cess, light you up and fire first
Spark a phatty off your burning flesh from nervous
stress
I split your brain
While you cry out "i'm hurt"
And I imply "it's a shame", I put it to the vein
Vile, like a bag lady up in a group home
Pussy looser then skin hanging from a chicken soup
bone
Circulating from ghetto to ghetto to blood from
Organ to organ from sicko to skitzo

[hook]

Listen to the rugged shit
Thats the only way I do it
Beat you in your skull til your drippin red fluid
Rugged shit
Thats the only way I'll have it
If not I'll stab stab it, stab stab stab it
Rugged shit
Thats the only way I do it *only way*
Beat you in your skull til your drippin red fluid
Rugged shit
Thats the only way I'll kick it *yeah*
If not leave me inflicted with the sick-ness

Bitch
Yeah

1999
The year back with triple sixes
The year is sadistic
Let the beat stomp your skull
Let the beat stomp your skull
Let the beat stomp your skull
