[VERSE 1]

Futuristic, brutal, super sadistic, evil trooper with biscuits inflicting sutures, frigid like the physics of Pluto.

Feudal aristocrat, Lucifer, Mephisto, forensic scientist, shooting ballistics you're stupid like a group of autistic, muscular dystrophy, immune deficiency, spastic, cystic fibrosis, mononucleosis, in a casket.

Keep it ruthless like a terrorist coup, blitz shit like sickness in ya lumbar disc, trick you like neuro linguistics.

Programmed like a moog, compose a fugue in vulgar vogue, a rogue like Krug with a Ruger, kill you on YouTube.

Monarch of carcasses cannibalistics Ebonics, cadaverous characteristics electronics, psychotic phonics.

Amplification of acoustics, amputation, smash you with a pool stick, one of damnation's ramifications, too sick.

Krills rap, leave you blinded like Ronnie Milsap, poke ya pupils out, glaucoma, lupus, cataracts, putrid, feel that.

[CHORUS]

Technician Of Execution. Mechanically murderous, the brutalist rapper. Comfortable pumping a full-clip into the wonderful front of your skull. Technician Of Execution

[VERSE 2]

Robotic engineering, technical pattern, microscopic, ventricle atoms, optically appearing on a pentacle splattered.

Flow like interferon, neurons, neutrons, cold like Freon,
you fucking peon, small like croutons.

You botox fag like Gabbana, doing bukkake and
colonic, queer, gerbils and Richard Gere, Pilates, you
swallow prick.

Played like Madden, you're a madam, destroy like Brad
Pitt in Troy, death wish you like Alladin, battered with
the gat end.

Demonic, dreary, meant to kill, feel flattered if I attack
you, and shove a steel blade in your Adam's apple, I'm
real passionate.

Peel ya cap back, lacerate, you should back track, ya
actions you get backslapped, you're fascinated by my
reaction.

You neurotic, god fearing, respectable, patron,hard of
hearing genital, you can't fathom why I create sin,

Poppin' off gats 'til they're empty, my tentacles jabbin'
like Joppy, impeccably stabbin' up rats like Hendry.

[CHORUS]

Technician Of Execution. Mechanically murderous, the
brutalist rapper. Comfortable pumping a full-clip into
the wonderful front of your skull. Technician Of
Execution
