Do you want me to be the guy your trying to make me?

Do you want me to be the guy that orders people to die?

Do you want me to be dispensation of life and death?

You convicted me for dispensating life and death, man

The *f---ing* president of the united states can't even do this

Nothin like a dead pastor, splattered all over concrete like plaster

Im sabath I blast from this disaster

I provide you with intricate, Sadistic shit

To guide you but diss the click, we'll divide you like arithmetic

Ridin with the pistol grips sliding down low in conspicuous

Were not sliding the biscuit clip

Buck at your release bullets inside you bitch

And if your in a car we'll pull upside of it

You know the rest, the pressure hurts

Bumped in your chest again, you'll be using your best efforts

Tuckin your intestines in, like dress shirts

A proffesional hit, your fucked like molested kids in church

We're cave beings, we crave seeing death like arabians

Stabbing your flesh like Linda Coursavien

Numerous punctures, it's humourous how a human crumbles when juxed

That's how the universe functions

[Chorus X2]

You'll live as long as I let you

You owe me your life

You'll die as soon as I give the order to get you

Kill 'em

Life and death the facts it will always get you

Remember

Knife and tacts the tools use to affect you

I have the ability, to mentaly deatatch myself from emotion

And the agility to dementadly slash your flesh with a

motion
During a comotion what's occurring is a promotion
When I crack you in public, all you see is the blur of an
explosion
Im pure corrosion of conformity, I love deformity
Like slice faces like shrapnel from bunkers in
Normandy
I observe you as non existant
The nerve of you to think your sadistic
Your an assistant
The piss ant
An unrealistic a bitch ass, you kiss ant
A dumb sistic vibrosic spastic that piss in his pants
If you see a stranger, stabbing a stranger
Don't get involved that shill will be stranger
When your in danger, of your life being taken
Over something, that wasn't a major concern of yours
Now your in surgery, cause an your artery got cut with
a razor
Ya played yaself you walk your line in life
Don't go batty, this rap I kick is deep like the shit
Manson told Patty
sample
He can make pink elephants
And your momma Africa comes home
And he still doesnt't't make elephants pink
sample
I don't even know who can burke, that's how dumb I am
