The Four Horseman

(Ill Bill)

I've been an outlaw and a gambler,  
Long as i can remember  
Drink whiskey from a bottle and always carry a banger  
Poker face womanizer bank robber  
And legend my name ring bells across the front tier  
when im mentioned  
When i step foot in the saloon i get a lot of attention  
I reckon there's haters your threatened by the strength  
of our weapon  
The speed of our bullets you wanna taste the heater i  
pull it  
I'm a goon with a golden six shooter n a mullet  
4 dead jump up on top the barn then shout  
If anybody else want drama better pop it off nowh ow  
many times this situation happened i can't remember  
So i turned 21 and got drunk with a bartender  
Gun slingers think they Clint Eastwood  
I'm like Jesse James ride up on a pony dump 6 in they  
face  
Twistin' they frames like tumble weeds  
Blister they brains then bounce to the whore house for  
more whiskey n things

(Goretex)

The Navajos and Mayans Drop the skin of tigers in  
battle  
Feedin the cows like Josey West i'll hold it down with  
two barells  
Back to the terrance prostitution racks in paris sippin  
cactus  
Dippin' on stallions my cordaroy's are blood splattered  
Decapitated my spurs carved like taxiderm  
torched the mayor jacked up his wife and let his  
carrige burn  
Moomerous moonshine runs in Kentucky  
Keep the powder up in the ten gallon in-case i get lucky

old medican man and his porch starin' at commons  
Four horseman we ridin' through your prairie like  
shamans  
Close to the trees shot at the volt machine is progress  
Kidnapped the sanities daughter penetrated with  
objects  
Whiskey bottles n twist offs killers know conscience  
See the dead are in jail that's how they moven' the  
convicts  
The bloody sickle death to the cheds accomplished  
Its a gorey ride this battle hits blood in the compass

(Chorus: (Necro))

Four horseman are drawin' nearer,  
On a leather stage we ride,  
We've come to take your life,  
All through the dead of night,  
We the four horseman ride,  
Or choose your fate and die

(Necro)

There's no loss spitten' flem on the floor and clappin  
I'll test you skin I smoke wagons see what happens  
I'm tired of your gas jerked that pistol and go to work  
Throw down boy ill bitch slap you till your lip blood  
squirts  
My aiming is more than precise when i slay men  
We both got gats lets play for blood, just say WHEN  
Let's settle this so we're crystal clear  
On whose the nicest and fastest ever im the deadliest  
pistoleier  
There's no future for dumb fucks  
After my gun bucks  
Smooth when im menueverin my 6 shooter like nun  
chucks  
Shootin clowns in the faces, the drinks on me  
Piano man steven fauster camp town races  
I'm down to dump anywhere far from a punk  
I got two guns one for each one of you when im drunk  
Watch out when the squads out  
Don't you ever try to man handle the cavol  
We'll cut your fucking pimps heart out

(Hyde)

OK Corral style shootout till sundown  
Im takin ten paces splatter there faces with a round  
quick draw like Will Carver with the .44 revolver  
Got a fist full of dollars once i started robbin harbours  
the tomb stone terrorist buckin down my nemisis

Creepin in the crevice its someone the man ever since  
16th blade for the murder of a deputy  
Robbed 30 banks and they never close to catchin me  
Drawin fire first your destinies inside the dirt  
Cause my trigger fingers faster then the hands of  
Wyatt Earp  
I'll stumble in a bar guns and burbon in my clutches  
5 card stud catchin straights and raw flushes  
Wild bunch horseman the fudgitive outlaw  
With double barrel action son ill shoot at you southpaw  
Young guns with total style always the most vile  
Ride up through your streets turn ur hood to a ghost  
town

(Chorus: (Necro))

Four horseman are drawin' nearer,  
On a leather stage we ride,  
We've come to take your life,  
All through the dead of night,  
We the four horseman ride,  
Or choose your fate and die
