Yo
Yeah uh
Yo this the shit right here
Yo this make me wanna kill somebody
Turn this shit up real fucking loud

[necro]
Drinking the bile out ya pancreas the fanciest
Cancerous spoken lyricist pack a shank on the hips
You a skanky bitch slit ya wrist and clitoris
If your inhibited i'll piss in ya syphillis and get pissed
Mr.death dr.demise surgeon slice
You'll die really slow if you don't appreciate life
You wack if you don't appreciate knives
The way a knife slices precise the trife it's a demonic
device
The chronic you light inhale for those in jail
To those that beef get impaled and buried in snails
My brains charred like burnt flesh and scarred
Ripping ya breast apart digest ya heart
Die!

Chorus: repeat 2x

Kid you know you can't fuck with this
Don't you know my shit's too sick
Kid you know you can't fuck with this
Might get ya whole fuckin head split

[necro]
Terrorize ya whole clit make suck ya own tits
And spit the cancer out grab a glock; call me sir
manson-a-lot
Blow ya brains on the seats varicose veins on the
streets
Cocaine bustin weed kill you slowly it's a must you
bleed
Pop a vein in ya skull from the stress feelin numb in ya
chest
Anxiety attack murder you with a variety
An axe a mack a black jack a back crack
Right upside ya fuckin head for talking shit about this

kid
You bled sadistic and red my biscuit pumps lead
Cock it obnoxious get chopped up in boxes
I'm toxic my topics are gothic
Morbidity you can't get rid of me
The reason that humidity is shittin me
So kill ya'self and write a note
Right before the noose wraps tight around ya throat
Ya windpipe is choked
New york is full of transvestites in coats
Helpless when chicks control and sacrificing goats
It's death for these second street derelicts
Reppin' it sellin shit malevolent
Mad felons kid i got three in the fam
Me and my man will beat you with hands leave you
beneath the sand
You sinkin quickly i'm thinking i'm sickly
I need medication the cadavers are getting stinky

Chorus: repeat 2x

Kid you know you can't fuck with this
Don't you know my shit's too sick
Kid you know you can't fuck with this
Might get ya whole fuckin head split
Split slpit
Fuckin head split fuckin head split bitch fuckin head
split
