

Necrodeath

"Cloned World"

Visit "[Cloned World](#)" on MotoLyrics.com

Biological manipulation
Led the human being
To reach the impossible

Technological appliances
Laboratories filled
With organic material

Biological superiority
To develop a new kind of life

Technological researches
The birth of a new world
Programmed to serve

Massive neurolinguistic programming

Cloned world, this is the cloned world
Cloned world, this is the cloned world
Manipulation, misinformation, elaboration,
disintegration

Mocking reality in an unpredictable way, imperfections
corrected
Superiority of organisms guaranteed

Deep studies full researches will to power...
Power to tame minds every single body cell in
obedience

Massive neurolinguistic programming
Key to the achievement of the cloned world
