"Mortal Consequence"

Just one hundred children you decided to kill
Assassinated and drowned by your twisted mind
Catalyst of tragedy show your macabre guiness
Witness of brutality murderer and rapist

Crawling in black - Gleams of hate
. Mortal consequence
. Mortal consequence

Desperate mothers pray the holy sentence
You clench up in anger delivered now to pain
Blurred and disoriented martyred by my impiety
Witness of brutality murderer and rapist
Crawling in black - Gleams of hate
. Mortal consequence
. Mortal consequence

"Nec gaudet tenui sanguine tanta sitis"

Now in front of everybody execution starts
See the face of death debilitating your heart
Reverence and silence to extremity of fear
Witness of brutality now you have to die!

Crawling in black - Gleams of hate
. Mortal consequence
. Mortal consequence
