I'm on the edge and I am dying without your love,
I'm on the brink and I am trying to make you stop;
When you are scared of falling, I'll be your guiding
light,
Living a life if you don't even try in love.

Step back from the edge,
Step back from the edge,
If ever you want, You're cursing the dark,
When I gave you my hearth I knew that I lost you

Step back from the edge,
Step back from the edge,
If ever you want, You're cursing the dark,
When I gave you my hearth.

You're on avoid coz you're scared to fall in love,
You're just afraid thinking...
