Baby baby baby do you want some fun
Maybe maybe maybe you'll give me the gun
Come over to my place and just havin' fun

Baby baby baby, wanna hold you tight
Maybe maybe maybe you'll just wanna fight
Come over to my place and just do it right

well come over to my place and don't start a fight
well come over to my place, and rock n roll all night

Rock n roll all night, don't come here and start a fight
Rock n roll all night, just give me a love bite

Well baby baby baby, wanna hold you tight
Well maybe maybe maybe you'll just wanna fight
well come over to my place and just do it right

well come over to my place and don't start a fight
well come over to my place, and rock n roll all night

Rock n roll all night, don't come here and start a fight
Rock n roll all night, just give me a love bite
