Time moving faster  
Time slipping, it's slipping away  
Time moving faster

Take me from my sadness  
Tear me from my madness  
Chase the way we're living  
While the world, while the world's asleep  
Take me from my sadness (Sadness)  
Tear me from my madness  
Chase the way we're living  
While the world, while the world's asleep  
Take me from my sadness (Sadness)  
Tear me from my madness  
Chase the way we're living  
While the world, while the world's asleep
