insemination of spoiled semen
vaginal flesh defiled
as the seed of sulfur grows
rapture with no end
igniting the flame of christ agony
2000 years of light destroyed
and a child shall lead them
deep inside, I plant the devil's seed
fornication beyond the grace of god
concieved in damnation
vomiting forth from the gaping womb of woman
the bastard child of unlight is reborn
upon the sacred alter of stone
I reverse the works of thy crucifixion
ave sathanas
decapitated saints
fall from the sky
gods chosen one burns
sin gives birth to life
the command of darkness
and all that surrounds
thorns of uncreation
spit upon the kingdom of light
deep inside I plant the devil's seed
