I can't touch the love
If there's no present I am cold...
A mind of thoughts won't let you in
I only feel your hands on me...

Your name it's running through my mind
I won't let me say it loud...
There are no memories to hold on
You're watchin' me fall on my own...

No love no you... Won't feel...
But you'll remember me...
Fallow fallow fallow fallow mee...

I know there's no one next to me
I'm staring trough tears at my heart
I keep my own thoughts deep in me
Vivid my certain stucked in past

Your name it's running through my mind
I won't let me say it loud
There are no memories to hold on
You're watchÃ~n' me fall on my own

No love no you... Won't feel...
But you'll remember me... yeah
Just fallow fallow fallow fallow mee...
