[Verse:]

I wait slowly timing something that never will  
I wait slowly fighting why does TIME STAND STILL  
I keep all my hours inside you and me  
I fight mighty power can't wait TILL I GET FREE

An explosion to the face make you realise  
Destroyed in every single place nothing left to hide  
End of our times are near means that we will die  
Confide to all that's left time to say goodbye

[Pre-Chorus:]

You and I  
We will fight  
Blood drawn swords  
We will not lose

[Chorus:]

Who will come and save me before I die  
Who will see the truth reflecting behind my eyes  
Who will come and save us before we die  
Who will turn their back on every in life

[Post-Chorus:]

Why I'm holding on oceans very strong  
Can't get myself there drown in my own fear

[Verse:]

Something to blow your mind make you see all the  
violence  
Kept away from time waiting to see true colours  
The path we made is there don't you dwell on the past  
Forget what lies within don't you under estimate me

[Pre-Chorus:]

Free to roam  
Curse these hands  
Fight for truth  
Stand up for myself

[Bridge:]

I turn out all my rage
