Deep in a dream
Dead of the night
I woke up to see
Shadows of what we could never be
Lying awake
Here in the dark
I see you for what you are
And I know I could never fill that need

Cause you take and take
To fill that empty space
Until there is no trace of who I used to be

CHORUS:

Whoah I can't be the one to fix you
I wish I could but nobody's that strong
You know I tried
Whoah I can't kill the pain within you
I'm getting off this trip you took me on
Here's a kiss in a cup, drink it when I'm gone

Now you deny the truth and the lies
As if they were the same
I took it all but I won't take the blame

Cause I gave and gave
To try and heal that place
Until I had to face it we were never ever meant to be

CHORUS:

Whoah I can't be the one to fix you
I wish I could but nobody's that strong
You know I tried
Whoah I can't kill the pain within you
I'm getting off this trip you took me on
Here's a kiss in a cup, drink it when I'm gone

Bridge:

I thought you were all I wanted
And all I ever needed
But the only truth you gave me was your name
Still I loved you all the same

You know I tried

CHORUS:

Whoah I can't be the one to fix you

I wish I could but nobodys that strong

You know I tried

Whoah I can't kill the pain within you

I'm getting off this trip you took me on

Heres a kiss in a cup, drink it when I'm gone
