

Escape From Earth "Yesterday"

Visit "[Yesterday](#)" on MotoLyrics.com

Well you were reaching, but you
How did you fall this far
All the memories are tearing me apart

Chorus
I hold a place
Time won't erase
I can't escape from yesterday
Look away
To face the truth
I can't escape from yesterday

I'm trapped in a world
I create in myself
And I won't advise regret
It screams to me

If I could go back and change it
I'd do things differently
Isn't it too late now?
Will someone answer me?

Chorus

I can't escape

Chorus
(Yesterday)
I hold a place (yesterday)
Time won't erase
I can't escape from yesterday (yesterday)
Look away (yesterday)
To face the truth
I can't escape from yesterday
Yeah
