Bury me in fucking Vegas!

Bury me in Vegas  
Bury me in Vegas baby

I want sex, I want cars,  
Want the drugs, grab the stars  
Leave the past behind  
With some drinks in those bars  
Bling bling  
I wear the biggest rolex baby  
Lowride my car with slim shady

... R.E.S.P.E.C.T"  
Girls make me going crazy  
Lipstick  
High-heels  
Do you wanna fuck me?

Take the money  
Ride my cock  
Bright light vegas-rock  
I fucked Jenny from the block

Take me by the hand  
Turn off the lights  
This star shines bright  
Through the darkest night  
Take me tonight

Take me by the hand  
Let's take a ride everything is possible tonight  
Take me tonight

Wohoho!  
Wohoho!  
Bury me in Vegas baby! (x3)

Wohoho!  
Wohoho!  
Make your fucking hands move!

Bury me in Vegas!

I'll take my money back  
You fucking slut ruined me  
Fucking Vegas the place where you're calling me

Bitch!  
Whore!  
Fuck you!

Knock knock who is there on the door?

Now crank the music up  
'Cause this is party time  
Cumshot-glass with-tequila and lime (x2)

Take me by the hand  
Turn off the lights  
This star shines bright  
Through the darkest night  
Take me tonight

Take me by the hand  
Let's take a ride  
Everything is possible tonight  
Take me tonight

Wohoho!  
Wohoho!  
Bury me in vegas baby! (x4)
