"The Stillborn One"

A life free of guilt exists when
The eye fights daylight yet unseen
A book with not a page written
Means hope yet sometimes to be

(The)
Stillborn one, born dead
(The)
Stillborn one, dead

When dawn and sunset coincide
The essence of a day is non-existent
Lifeless

Dehydrated soils may not recover
From the drought they might be plagued with
Prepare to be

The stillborn one
The stillborn one

When dawn and sunset coincide
The essence of a day is non-existent
Lifeless

Dehydrated soils may not recover
From the drought they might be plagued with
Prepare to be
