We get enough of her,  
Enough of generous heart.  
She's giving to us the chance

So grateful to her I am  
I can't ask no more of her

Oh this tremendous strength which keeps us alive  
And giving us the power to survive!

From the sunrise to downrise  
And whole our lives  
We're living in the middle  
Of her heart

This is the only way for us that we can see  
All the brilliants of this world

Honor all the pleasures of this diamond life  
The only freedom is in this place  
Honor all the pleasures of this diamond life!  
HONOR!

Enjoy the day and night and look from your sight  
Don't challenge her kindness with redundant mess

Earthquake is a warning from her  
For your misery or disrespect

Oh this tremendous strength which keeps us alive  
And giving us the power to survive!

From the sunrise to downrise  
And whole our lives  
We're living in the middle  
Of her heart

This is the only way for us that we can see  
All the brilliants of this world

Enjoy the greens of this earth  
And mercy of this rose

And use all the things for just a good purpose
