You and I used to meet the same
Wrapped together in cellophane
We can try to get away
Drift forever, lost in

Space... (We're getting better all the time)
Space... (We're getting better all the time)
Space... (We're getting better all the time)
Safe... (We're getting better all the time)

You can try to change my day
Lock me up and you watch me fade
You and I can emulate
Drift together, lost in

Space... (We're getting better all the time)
Space... (We're getting better all the time)
Safe... (We're getting better all the time)
Safe... (We're getting better all the time)

Decompress again (Pressure, pressure, pressure...)
Take control again
Connected once again
We're starting to descend

Space... (We're getting better all the time)
Space... (We're getting better all the time)
Safe... (We're getting better all the time)
Safe... (We're getting better all the time)
Space... (We're getting better all the time)
Space... (We're getting better all the time)
Safe... (We're getting better all the time)
Safe... (We're getting better all the time)
