We stayed up all night  
In little green cars by the ocean  
By the sea  
In a field of carpark  
I said your name  
You made me smile or cry  
By the sea  
In an ice cream ocean

So why'd you have to melt inside of me?  
I floated higher just so I could see your future  
Why'd you have to fall away from me?  
I floated higher just so I could get perspective

Don't fall asleep  
'Cause I'm far away from here  
And it's easier when you're around  
Don't leave me here  
'Cause there would be nothing left  
There'd be nothing left here when you go
