He kissed his wife and baby boy  
And headed off to work  
While they were waving at the door  
Made a left on Route 19  
Reached down for his coffee cup  
And dropped his cell phone on the floor  
He tried his best to make it back across the line oh,  
But the first thing that went racing through his mind...

### CHORUS

Blink your eyes, time will fly  
And suddenly it's gone  
Everything turns on a dime  
When your blessings fall, count them all and when you  
do you'll find  
There's so much love so little time so little time

She took her daddy by the arm  
To walk her down the aisle  
And to give her hand away

And all the memories rushing in  
Skinned knees and soccer games  
Broken hearts and high school plays  
He said "I love you baby" fighting back the tears  
He just kept thinking as his mind raced through the  
years...

Look at all the people that you love in your life  
Hold them close, don't let go, take your time, love them  
right
