I'll find truth in all of this
I'm gonna cut you up and see what's in your chest
Take two steps back and stay you're shaking
Doesn't it feel good to be exposed
So how does it feel
To be stuck on the ground
The sky is out of your reach
But so am i
You've gone to far
It's in your head
You just might soar but i hope you...fall instead
So let's take a trip up to the mountains
So you can try this one last time
Forget about starting head straight for the canyon
Now we're getting to the bottom of this mess
So how does it feel
To be stuck on the ground
The sky's out of your reach
But so am i
You've gone to far
It's in your head
You just might soar but i hope you...fall instead
You fall (x3)
Instead
