I may not have all the riches, I may not drive a fancy car
But if you take the chance and give me your digits, ill show you what you are
Cuz tpain said he fell in love with a stripper, Jamie foxx just blamed it on the liquor
But to me your more of a winner, so I guess jamies just a beginner
Oh the things you do to us boys you got us going insane
Yesterday you put iyaz in a reply; today you made akon so lonely
But im not just another guy, you may think that ill just come and go but deep down in side you will be surprised
And oh she's got it all sexy from her head to her toes.
But ignore ushers calls
Cuz you know that

I love you X5
You know I do
Oh girl I love you x4
Please say you love me to
Fat joe make it rain chris brown may crawl, tpain will buy you a drank but ill give you my all
Because I love you X5

Bruno mars say that all these girls they've got nothing on you
But I seen him screaming out he wants to be a billionaire
So you know money comes before you..
50 said he met you at the candy shop, lil wayne said you licked him like a lollipop.
Baby I don't care if you did or not because my love just won't stop
Taio cruz told me he's going to break you heart, if he does ill break his face.
Justin bieber brags about calling you his baby but if you ask m e hes the baby he still wears nappies he's only like 8 and

I oh im not like the other boys, you can't scare me
away because my love is to stronger
So turn down the lights n like my heart play you a song
like
And oh she's got it all sexy from her head to her toes.
But ignore ushers calls
Cuz you know that

I love you X5
You know I do
Oh girl I love you x4
Please say you love me to
Jason derulo wants a text, chingy wants a call ,
Jeremiah wants his birthday sex
But I think your worth more because
I love you X5
Please say you love me to, say you love me to
Oh say you love me to say that you do

Because I may not have all the riches, I may not drive a
fancy car
But if you take the chance and give me your digits, ill
show you what you are
You are a star, oh you are a star the brightest one by
far. Oh girl yes you are

Yea.someone tell Jason derulo to keep on riding solo, t.i
she aint got your bag man. Eminem she does not love
the way you lie and uncle cracker you don't make her
smile but I told this girl its like this
I love you X5 you know I do oh girl I love you X 4 please
say you love me to.
Cuz girl you are a star, oh you are a star X2
And girl I love you.
