It's the kindness of strangers
And the absence of harm
With the Gothenburg Herbman
And his friendly charm
He's got a headful of liquor
And a fistful of grass
And his skin is the color
Of the white middle-class
He do the crazy handstand
He do the funny ape
He do the rock'n'roll band
He do the total fake
He want the dolphin flip
Adidas handball-shoe
Around the moon and back hit

He do the I love you
He's got a headful of liquor
And a fistful of hasch
He's still watching the sky
For the two-seven clash
He is the space invader
He's a sex machine
He is the caped crusader
He's a strangers dream
Gothenburg herbman
Your super-hero boyfriend
Gothenburg herbman
Your super-hero boyfriend
Your super-hero boyfriend
