Iâ´m the projector
And you are the silver screen
I dwell in darkness
You are what is seen
And I live for you
Live for you
Live for a long time dear
And itâ´'s been so nice
Been so nice
Been so nice to have you here
To have you near
Oh, I do care
I see your face
Everywhere
So I drink, drink, drink

Drink â´til Iâ´m beautiful
Drink, drink, drink
Drink â´til Iâ´m pitiful
& I remember in november
& I do still
There where hints & alligations
& vodka & pills
& I remember in december
Your hand in mine
There where heartaches & tootheaches
>From all the warm wine
But I live for you...
