You might live in Gothenburg
You might live in Spain
You might add some tenderness
Or, you might bring me pain
Here's another song about you
It's not something I want to
It's just something that I do
And I, yeah, I could kiss you right now
Wouldn't that be a shame
Or would it al just
Be the same
You might live in Kansas City
You might live in sin
You might leave me far behind

Or change me from within
Here's another song about you
It's not something I want to
It's just something that I do
And I could kill you right now
Wouldn't that be a shame
Or would it all just
Be the same
Be the same
Be the same
Never thought that I would crash and burn
The same
Be the same
Never thought that I would turn
The same
Turn the same
