Your mother's gonna die
And you'll be dressed in deepest black
Your children's gonna die
You know they're never coming back
It's such a lack
For your worthless self
And you want them back
So you dream about the summer they where 12
Years old
We're all gonna die
Sha la-la-la-la-la-la-la
Your friend's all gonna die
You hide your face and shed a tear
You're sister's gonna die
And all you feel is worthless fear
You want her near
But she's gone forever
And you can't conquer
The pathetic little demons from your past
Oh, what a blast
We're all gonna die
Sha la-la-la-la-la-la-la
