Set the scene...
I'll climb inside the aeroplane...
I'm flying to the night...
I won't be coming back...
I won't be coming back...
I found a place where I feel safe...
It all fades to black..

Wake up in the morning, shut my eyes
as the dog begins to cry
Let me out, I'm not feeling well

As calm as the country in your sleep
when the bad thoughts all come creeping in
I shut my eyes again

On different planets you and I
And I cannot see how we
decided on endless time

Set the scene
Roll the film, fire the lights
I'll climb inside my aeroplane
And fly right off into the night
And I won't be coming back
Found a place where I feel safe
But it all just fades to black

Try and picture only this
loving one with just one kiss to have at night

seems so surreal

Time is a run-on sentence now
going on and on no matter how
I convince myself
The days are flying by

Stuck on the same day of the week
and it makes me weak to think that we
decided on endless time

Set the scene
Roll the film, fire the lights
I'll climb inside my aeroplane
And fly right off into the night
And I won't be coming back
Found a place where I feel safe
But it all just fades to black

It all just fades to black

It all just fades to black...

Set the scene...
I'll climb inside the aeroplane...
I'm flying to the night...
I won't be coming back...
I won't be coming back...
I found a place where I feel safe...
It all fades to black..
