

Aldo Nova "See The Light"

Visit "[See The Light](#)" on MotoLyrics.com

You took to the light
And they call you a fool
You think "It's alright"
It's all part of the rules
But don't look away
Till you've seen the light
Or they'll get to you
Well if you wanna stay
Then do what you gotta do
Chorus:
See the light and you will find the answer
Morning, night anytime
See the light and you will find the answer
Morning, night anytime
If you see the light

You wanna give up
'Cause they're gettin' to you
They say live it up
And stop being a fool
Chorus:
If you see the light
Chorus:
If you see the light
And you do it right
And shake things up
And just get it right
Don't be a fool
Play it cool
Just get it right
Look to the light
Yeah!
