The hurry's gonna bring you to your knees
I know this much is true
Your eyes are gonna rob you of your thunder
Show you everything but you
We're caught when our hands are off the wheel
And our foot is on the gas
Like a moth to a flame, the fire moves us
We're just waiting on the crash

Yeah, you know we will

Let the drumbeats wash you over
Let the songs come and take you under
Push the life that brought you here away from you
tonight, oh
There's a place where the pain can't touch ya
And there's a fire where the heat won't burn ya
It's in the sound of your voice tonight singing in one
song, oh

You can hear it in the trail behind your voice
There's a multitude who claim
They've been through the fire of fallen angels
They'll never be the same
We live with the weight of what we've done
The cracks that we slip through
No time to forget about our future
Just the things that we won't do

But you know you can't

Let the drumbeats wash you over
Let the songs come and take you under
Push the life that brought you here away from you
tonight, oh
There's a place where the pain can't touch ya
And there's a fire where the heat won't burn ya
It's in the sound of your voice tonight singing in one
song

Oh oh oh oh

I know you'll hear
The power in the way
Your voice can sound
When there's nothing left to say
I know you'll feel
The way that I have felt tonight
Without a single thing in mind
It sounds just right

It sounds just right
It sounds just right
It sounds just right
It sounds just right

Let the drumbeats wash you over
Let the songs come and take you under
Push the life that brought you here away from you
tonight, oh
There's a place where the pain can't touch ya
And there's a fire where the heat won't burn ya
It's in the sound of your voice tonight singing in one
song

Oh oh oh oh
