"Girl I ve Ever Seen"

We're stuck here all alone
I knew they'd leave you here
We've prayed for better things to come
I'm on my way, oh, have no fear

You are easily
The most beautiful girl I've ever seen

Lady, won't you come with me
Way up in the dusty air
We'll pick apart a memory
In tangled tresses of your hair

You are easily
The most beautiful girl I've ever seen
You are easily
The most beautiful girl I've ever seen

I'm comin' out the dark
I'll you short a season now
No, I don't want your broken heart
'Cause winter's come, it's roaring loud

You are easily
The most beautiful girl I've ever seen
You are easily
The most beautiful girl I've ever seen
